June 20, 1980

Mr. H. Bruce English
General Manager
Specialty Chemicals Division
Monsanto Industrial Chemicals Co.
800 N. Lindbergh Boulevard
St. Louis, Missouri 63166

Dear Mr. English:

As you are aware, our companies have recently entered into a working agreement regarding Monsanto disposing of VBLS waste at our Lone Star facility. We at Lone Star are happy with the arrangement and glad that we can help relieve some of the environmental pressures that concern Monsanto.

It has been a pleasure working with the Monsanto people during the installation of the equipment and also the development of the final agreement. Your Senior Process Engineer, Bruce Pallante, spearheaded this project from the very beginning until its final completion. He did an outstanding job coordinating the project. Bruce attended all of the meetings between Lone Star and Monsanto and served as mediator in reaching a workable agreement that was acceptable to all concerned.

Again, thank you for your cooperation in this endeavor.

Yours sincerely,

Tommy G. Wells
Plant Manager
